

IAC-D-57/88  
7 January 1958

Post-Mortem on NIE 92-58:

The Outlook for Bolivia,

dated 7 January 1958

Findings

The principal intelligence deficiencies noted during the preparation of NIE 92-58 concerned the political intentions and capabilities of labor, including:

- (1) Attitudes, affiliations, and motivations of Juan Sanjines and other leaders of the labor sector supporting President Siles and the stabilization program.
- (2) Extent of orthodox Communist influence in the pro-Siles labor sector.
- (3) Ability of labor leadership to control rank and file.
- (4) Intentions of COB Executive Secretary Juan Lechin.
- (5) Capabilities of worker and campesino militia units.
